Gary Cortez
Flow Vision LLC, USA
P.O. Box 1585
113 Landon Lane
Dillon, CO 80435

Dear Gary,

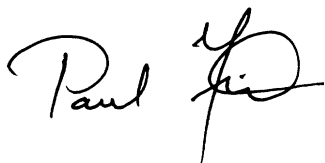

As a Sponsor of the 2009 National Floriculture Forum, we sincerely thank Flow Vision LLC for their contribution toward this event.

Your generosity has enabled floriculture professionals, faculty, and students from around the nation (15 universities and 18 companies, with over 60 participants) to come together for knowledge exchange and networking. It enabled them to observe and interact with growers, retailers, importers and other faculty, all of whom are supportive in the floriculture industry. It was a very positive learning experience for everyone. Two of our tour stops, Kerry's Nursery and Kraft Gardens, talked at length about lean flow and spoke very highly of your company. It was a good opportunity for researchers and teachers to understand and be able to communicate the value of your approach.

We provided your logo on a fancy clipboard, tote bag, website, presentations, and trade publicity (in Greenhouse Grower, GrowerTalks, GMPro) for the event, in addition to naming our sponsors during the tour and final dinner.

We look forward to collaborating with Flow Vision in the future. I hope you will again consider participating next year when the event is hosted by Texas A&M University.

Sincerely,

A handwritten signature in black ink that reads "Paul Fisher". The signature is written in a cursive style with a large, stylized "F" and "i".

Paul Fisher
